

Political Ideology Syllabus

This is what you should be able to do at the end of this unit:

1. Describe how the political spectrum looks and works.
2. Define a conservative.
3. Define a moderate.
4. Define a liberal.
5. Identify yourself as a conservative, moderate, or liberal.
6. Match our major political parties with commonly held ideologies.

These are the things we will learn about during this unit. If you meet the objectives as we cover them in class, studying for the test will only be a matter of review. This is also basically the test.
